DETAILED ACTION

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The independent claims are allowed because the prior art fails to disclose: "applying a first compensation current to said phase adjustment region when said bias current is input to said active layer region, and applying a second compensation current corresponding to said difference to said phase adjustment region when said multipulse modulation current is input to said active layer region."

Although various prior art references disclose several of the limitations in the independent claims, these references and their combination fail to disclose the above recited feature.

For example, Kazasumi et al. (U.S. Pat. No. 7,010,006) discloses the device subject matter of the present application, and Nitta et al. (5,926,497) discloses using various modulation currents and bias currents and their differences. ~~neither Kazasumi, nor Nitta, nor their combination, discloses the above recited feature.~~ *However,*

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
